Order code	Picture	Qty / pack
PGVSTPINGLUE: 200 x 2,5 x 2,5 cm 		1 PC / PACK

Product specifications: PERGO® stair nose GLUE for Vinyl floors

- Scratch-resistant aluminium, silver colour
- Dimensions 1 PC: 200 x 2,5 x 2,5 cm
- Order quantity: 1 PC – code : PGVSTPINGLUE
- To be used with 2 mm Vinyl floors.
- Very slim profile for use with **glued** vinyl floors
- For use on stairs and steps
- Installation with screws and plugs (not included)

Installation

Use this profile on every INNER corner of your stairs
 Make sure the vinyl floor is clean, dust-free and level.
 Saw the profile to the correct length.

The PERGO stair nose has pre-drilled and countersunk drill holes. Mark the drill holes on the subfloor with a pen. Use screws with a diameter of 5 mm.

Installation on mineral subfloors: drill the holes, remove all drilling dust and insert plugs first. Then fix the stair profile with screws. Installation on wooden subfloors: evaluate the need to use plugs (depends on the type of wood), alternatively screw directly into the wooden subfloor. Apply the Pergo One4all glue over the basic profile and level out carefully. As well as on the upper side of the profile, again, level out carefully. Then place the vinyl planks.

TIP:

With the PERGO Vinyl tool and cutting knife you can precisely cut the Vinyl plank to fit your stairs.
